

Civil Engineer – Level 6

The entry requirements for the learning provider for this course are as follows:

Minimum academic qualifications of at least 96 UCAS points or above at A-level or equivalent, to include Mathematics plus at least one further STEM-based subject such as Physics, ICT, Computing and Electronics. Apprenticeship candidates will typically have at least three A-levels at Grades A*-C including Mathematics and Physical Science or their equivalent or will have completed a Level 3 Apprenticeship as a Civil Engineering Technician, plus five GCSEs at Grade A-C including Mathematics, English Language and Double Science or equivalent qualification. Individual employers will also set their own selection criteria and typical entry requirements. Direct entry at Level 5 (if allowed within the Levy) will depend on achieving recognition of prior learning equivalent to Level 4 of the degree.
