

<p>Business area: Transportation</p> <p>Requirements: On track to achieve a minimum of a 2.1 Bachelor's/BEng degree or 2.2 Master's/MEng in Civil or Structural Engineering</p>
<p>Our teams and what they do</p>
<p>Bridges & Civils</p> <p>As a member of our Bridges & Civil team you'll gain experience of all phases of design and assessment including initial concept designs, further design development and construction support.</p> <p>Within this exciting and varied role you'll undertake a variety of technical tasks including technical report writing, design calculations, site working, computer aided modelling and drawing preparation amongst other project-related tasks. Opportunities may include project management or construction, as well as the experience of working with other disciplines such as geotechnical and environmental engineering.</p> <p>Our teams work on a broad array of projects within the rail, highways and local transport markets. This ranges from flagship projects such as High Speed 2, East West Rail and across the Highways England East Region, to essential maintenance and renewal projects on our road and railway networks. As you collaborate on projects across the country you'll work with colleagues from a variety of backgrounds and cultures.</p> <p>Our placement scheme provides a variety of experience to start a fulfilling career with Atkins.</p>
<p>Highways</p> <p>As a valued member of our Transportation Highways team, you'll gain exposure to the fundamentals of highway and traffic engineering, including roads, bridges, transit systems and active travel.</p> <p>Upon joining the highway practice you'll gain experience of all phases of infrastructure design, from initial concept design through to construction. We'll empower you to develop your skills within a technical role, undertaking a variety of project-related tasks including technical report writing, site working, computer aided modelling and drawing preparation.</p> <p>Our teams work together on a broad array of projects within the local and strategic highway markets. We deliver a range of projects including active travel projects that create new walking and cycling infrastructure, essential maintenance and renewal projects on our road networks and flagship projects such as the A14 Cambridge to Huntingdon highway improvement scheme. You'll take an active role as part of a team tasked with transforming transport infrastructure while providing net-zero emissions, helping to achieve the UK's sustainable development goals. We work collaboratively across the country so you'll be involved in projects with colleagues from a variety of backgrounds and cultures.</p>
